QUALITY AND ENVIRONMENT

COMPANY:

We only use energy from certified renewable sources.

OUR PRODUCTION:

Eco-sustainable solutions thanks to the use of avant-garde technologies that combine aesthetics and functionality.

OUR SUPPLIERS:

Only selected and local suppliers to ensure highest excellence and respect for the environment.

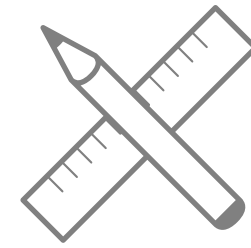

ISO 9001:2015 CERTIFICATION

Product certifications: acoustics, fire resistance, mechanics, safety.

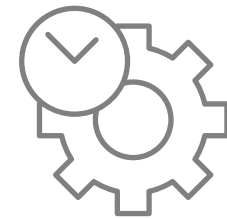

STRONG POINTS

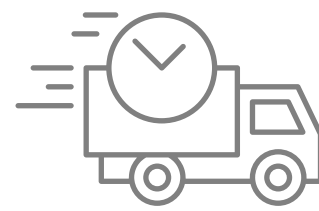

DESIGN AND CUSTOMIZATION

Our tech office and our designers tailor each product to perfectly fit the room, finding the best solution to meet both the functional and the aesthetical requirements the client needs.

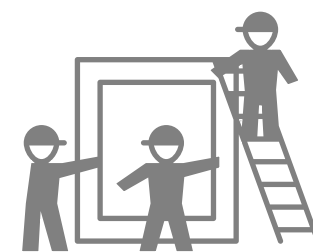

MANUFACTURING

Having a constant exchange with our tech department, the factory can manufacture our products and have them ready for shipping in a 48-hours average.

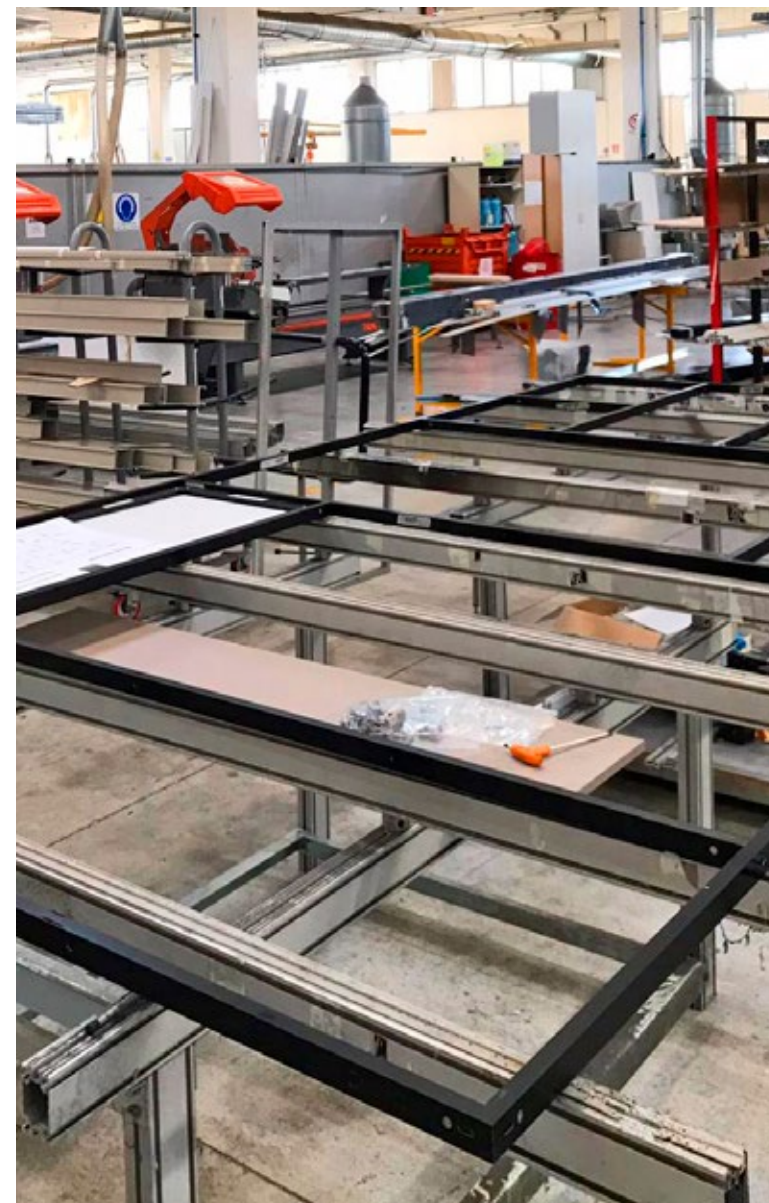

DELIVERY

The 100% of our orders are being delivered on schedule thanks to the certified network of transport companies we deal with.

ASSEMBLY

Our assembly times are fast and efficient thanks to our highly-skilled installation teams, working with us since many years so far.

unica®

51-mm thick Partition Wall
(single glass, double glass, solid)

Unica is a partition designed to satisfy both the operational and the aesthetic requirements of innovative and comfortable working spaces. Its main characteristics are the minimal design, the thin 51-mm total thickness of its metal structure and the high level of custom-tailoring it can reach under the aesthetic and operational point of view.

It is also designed to hold suspended storages, shelves, curtains and coat hangers, thanks to its special vertical stud, expressly designed for this purpose.

ritmica[®] wood

92-mm thick Partition Wall
(single glass, double glass, solid)

Ritmica wood is an innovative line of partition walls taking its name from the wooden veneered profiles.

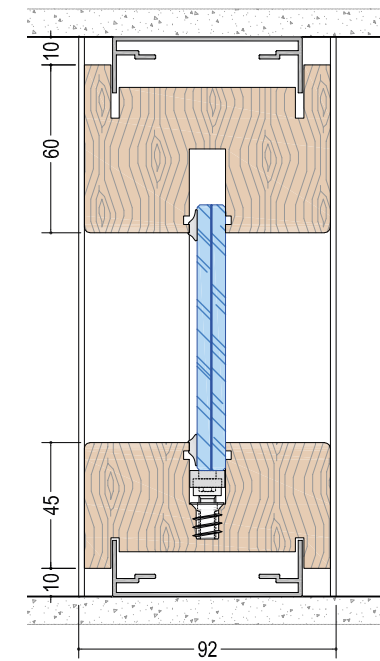

Rediscovering tradition while looking to the future is the philosophy behind Ritmica Wood, perfect for elegant spaces while offering optimum acoustics.

metrica[®] frameless

104-mm thick Partition Wall
(single glass, double glass, solid)

A new generation of acoustic glass walls, with high sound insulation. Designed with single or double glass, it stands out for the absence of structural uprights.

The search for total transparency has led to the design of fully glazed corners, made of glass-to-glass junctions.
